

DECLARATION OF CONFORMITY

according to directive 1907/2006

„REACH – Registration, Evaluation, Authorisation and Restriction of Chemicals”

In the context of Article 3(3) of Regulation (EC) No 1907/2006 (REACH) products manufactured by SHP Steriltechnik AG are considered to be articles. Articles as a whole are not listed and registered under REACH in the SVHC candidate list. However, the substances used in the articles are essentially subject to Articles 7 and 33 of the Regulation.

We carry out regular checks along the supply chain.

On the basis of the supplier notifications we receive, we can rule out the possibility that more than 0.1% of an SVHC substance is found in the manufactured products. As a result, we currently assume that SVHC are not present in our products within the concentration limits of a legally required information obligation.

In case of changes to our supplier notifications, we will of course inform you in accordance with our obligations under §33 of the REACH Regulation.

As we are dependent on our suppliers' compliance with their legal obligations, we cannot make any legally binding declarations beyond this.

Detzel, 25.05.2020

Michael Sporys
CEO SHP Steriltechnik AG
